linemarkers has now arrived!**

*Unlike any other  
ride-on linestriper  
in the market!*

## NOW AVAILABLE!

- **UNIQUE**  
Highly innovative design.  
Developed by linemarking  
contractors.
- **POWERFUL**  
Powered by a Briggs & Stratton,  
14Hp, V-Twin Motor & Wagner  
Hydraulic pump.
- **PROFITABLE**  
Start increasing your productivity  
and profitability today!

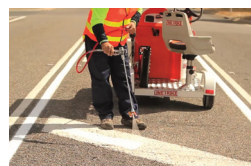

## LINE TRIKE

Canopy is raised and lowered simply by unscrewing the lever, then pulling down on the support arm.

The LineTrike weighs only 347kg (empty) so it can be transported on a single axle trailer. It drives on and off with ease, making set up time and packing up much faster and easier.

15m hose, contractor style gun and 18" extension pole for manual application. Hose retracts into the hose reel next to the seat.

## ADDITIONAL FEATURES

- Available as a 1-gun or 2-gun configuration
- 360 degree turning circle with variable ratio steering
- Large 20kg adjustable flow bead hopper
- Compact, comfortable & easy to operate
- All main controls within easy reach of the operator
- Dual closed circuit hydraulic pumps
- Adjustable height hydraulic canopy
- Retractable Wagner AG-08 gun & Tip, 15m airless hose and 18" extension pole for stencil work
- Canopy mounted LED warning and clearance lights
- Front mounted clear LED daylight running lamps
- Disk parking brake (rear wheels)
- Automatic turn speed reduction
- Spare tyre
