WAGNER

AIRLESS 117

Suitable for *small to medium* sized projects, new work or renovations. A very compact and practical unit.

Part No. 0418032

PRODUCT FEATURES

- Quickflo Valve™
- 4-finger spray gun & full size filter
- Rugged stand

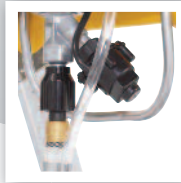

Manual valve depressor (117)

TECHNICAL SPECS

- 550 watt motor power
- 0.95 ltr p/min max flow rate
- 2900 PSI max spraying pressure
- Maximum tip size 0.017°
- PP-05 4-finger spray gun
- 7.5m airless hose
- Weighs only 12 kgs
- 230 volts / 50 Hz
- 0.015° tip supplied with unit

AIRLESS 119

PRODUCT FEATURES

- SureFlo Valve™
- 4-finger spray gun & full size filter
- Smart-Move Collapsible Cart™

TECHNICAL SPECS

- 600 watt motor power
- 1.25 ltr p/min max flow rate
- 2900 PSI max spraying pressure
- Maximum tip size 0.017°
- 4-finger spray gun
- 15m airless hose
- Weighs only 22 kgs
- 230 volts / 50 Hz
- 0.015° tip supplied with unit

Suitable for *medium to larger* sized projects, new work, renovation and light commercial applications.

FACTORS WHO REQUIRE THE CAPACITY AND PERFORMANCE FOR OCCASIONAL SPRAYING

Wagner has developed a completely new equipment range that bridges the gap between DIY and Contractor paint application products. Introducing the ProjectPro series, a powerful range of airless and HVLP sprayers that can work with a range of different materials. From enamels, acrylics, laquers and stains, right through to corrosion protection, the powerful ProjectPro units can spray all popular water soluble and solvent based materials easily and professionally.

Also in the ProjectPro range is the tough new DTS5800 Pro Wallpaper Steamer. With it's heavy-duty metal frame, quick heat-up and long steam time, the DTS5800 Pro is a great addition to the Wagner range.

AIRLESS 117 & 119

Piston pump technology for airless spraying of a wide range of materials and large surface areas. Robust, fast and reliable, these two powerful tools are compact enough to fit in boot space.

FINESPRAY 213

High volume, low pressure (HVLP) technology providing very high atomisation power for a brilliant finish. Air and paint flow can be easily regulated from the gun, and a convenient on/off switch is located on the gun handle.

DTS5800 PRO Steamer

This steamer will remove your old wallpaper or complete your steam cleaning tasks faster than any other unit on the market. The award-winning dual chamber system allows the unit to heat in only 3 minutes; no need to wait long periods of time for the unit to steam.
